STYLE  
**PLANKLOCK®**

A linear paver that gives your project a sleek appearance.

An elegant plank paver with a sophisticated long profile that accents slender lines. Designed to have the look of long and narrow planks, these paving slabs install in a linear pattern and create the visual experience of long boardwalks. The Desert Series Collection blends the richness of desert aggregates mixed with seashells to create an elegant look throughout your landscape.

The Planklock® collection is part of our Steplock® Line, exclusively designed for pedestrian applications.

**APPLICATIONS**

Designed for use in pedestrian applications including patios, swimming pool decks, walkways as well as architectural and decorative uses such as raised walls, fountains, benches and planters. These long planks have side spacers for an easy installation.

**NOTES**

- The Planklock® collection has natural shells embedded at different distances from the surface of the paver or coping, and then polished. Therefore, a small percentage of the shells are expected to come loose from the surface and edges of the tile. This occurrence will diminish over a short span of time and in no way will effect the strength of the products.
- Pavers should be installed from several pallets at a time to maintain the best color consistency.
- Due to processes required to manufacture, package, deliver, unpack, install and compact the products, small chipping can be expected.
- The product images in our catalogs, brochures, or shown on monitor screens give a general indication of color for a preliminary selection. We recommend you also view current product samples and look at actual finished projects before making your final decision.

PRODUCT	DESCRIPTION
<p><b>PLANKLOCK®</b> <b>Desert Series<sup>1</sup></b></p>	<p>Artistic Paver's Planklock® paver is easy to incorporate a linear and contemporary look to your project by including Planklock® pavers. Our Desert Series is a beautiful and elegant alternative to the ubiquitous and very ordinary brick paver look. An addition to our line of products, our 8"x24" plank paver is a sophisticated long profile that accents slender lines. Designed to have the look of long and narrow planks, these plank pavers install in a linear pattern and create the visual experience of long boardwalks. Multicolor aggregates are mixed in each paver and then honed to expose the natural tones of the desert.</p> <p>Planklock® pavers are part of our Steplock® line. Architects and Landscape Designers throughout the country are trending towards a more lineal look for decks. Planklock® Desert Series delivers a very ultramodern look in a 8"x24"x2-3/8" paver exclusively designed for pedestrian applications. Pavers are calibrated to achieve a uniform dimensions with very little variation for easy installation.</p> <p>Each piece is made to precision with the highest quality of technological machinery available. You can expect a slight variation in shell and shade color which simply adds to the natural appearance of each piece. Planklock® transforms any pool deck into a natural looking paradise.</p> <p>Available in Two Finishes: "Polished" and "Polished and Antiqued". "Polished" pavers have a sleek surface and bring a modern tone to the landscape due to their well-defined lines. For a more relaxed look, Planklock® Desert Series is offered also in "Polished and Antiqued" finish. The antiquing process is applied to the surface after it has been polished, which adds a more relaxed look while keeping the comfortable smoothness to walk on.</p> <p>Planklock® Desert Series pavers are available in 3 different colors: Cool White, Sand and Silver Sam.</p>
<p>NOTES</p> <ol style="list-style-type: none"><li>1. Planklock® Desert Series ships only from the West Coast factory.</li><li>2. 8X24X2-3/8	200x600x60	INTERLOCKING SAND-SET BEVELED PLANK PAVER	<p>Planklock® Desert Series pavers are part of our Steplock® Line, exclusively designed for pedestrian applications including patios, swimming pool decks, lanais, walkways and more.</p> <p>Pavers are calibrated to achieve a uniform thickness.</p> <p>The beveled cushioned edge on our pavers help to prevent tripping hazards and aids the installer in the leveling process of the paver installation.</p> <p>Each paver is factory pressed which produces a paver that averages over 9,000 pounds per square inch (PSI). This makes our paver extremely durable and less porous than poured concrete.</p> <p>This highly dense product resists staining, helps to prevent algae and mildew from attaching itself to the surface of the product and it's impervious to damage from saltwater pools</p> <p>Our pavers require very little maintenance and sealing is optional.</p>

**COPING**

1-5/8" thick coping can be used in combination with Planklock. However, due to the difference in thickness, an elevation adjustment has to be made to have the deck surface leveled.

**FINISHES**

POLISHED	The polished surface is smooth and very comfortable to walk on barefoot, yet, it has a High Slip Resistance (lower probability of slipping)*.
POLISHED & ANTIQUED (Available on the West Coast only )	To obtain the Polished & Antiqued finish, the pavers go through a high-end process that gently adds a subtle layer of texture to the surface. The result is a pavers with a more relaxed look, very elegant and comfortable to walk on barefoot.
