Specially designed for pedestrian applications, the 8x24 Planklock is a 2-3/8" thick plank with spacers. To use the 2-3/8" thick 8x24 Planklock with any 1-5/8" thick coping pieces the deck base needs to be adjusted to match the coping thickness.

PRODUCT EXPECTATIONS TO BE REVIEWED WITH THE CUSTOMER

1. Because of color dye lots and natural raw materials inconsistencies, products will have color shade and texture variations. Assure an even color mix by taking pavers from several bundles or pallets at a time.
2. In Shellock® & Roadlock® pavers, natural shells and/or aggregates are embedded at different distances from the surface of the material. Therefore, a small percentage of the shells and/or aggregates are expected to come loose from the surface and edges of the tile. This occurrence will diminish over a short span of time and in no way will effect the strength of the product.
3. Due to the process required to manufacture, package, deliver, unpack, install and compact, small chipping can be expected.
4. Installation of coping is done by leveling from the top. Because of variations in thickness, length and width of flagstone, wet cast products, Artistic Paver products and many other natural products, there will be uneven joints between the top of tile line and the bottom of the coping. Additionally, because of dimensional differences in these products, grout joints will vary.
5. Pavers are calibrated to achieve a uniform thickness of approximately 1-5/8" or 2-3/8", according to the product nominal description. Artistic Paver's products are manufactured in metric sizes and are rounded to the closest size equivalent in English units.
6. When installing a thicker paver or paving slab on the field and a thinner paver for coping or border, the field base needs to be adjusted to match the coping and/or border thickness.
7. Before making a decision on any product, we recommend verifying your selection with an actual sample of the product.

MATERIAL DROP-OFF	Where do you want the pavers to be delivered: <input type="checkbox"/> Curbside <input type="checkbox"/> Backyard* <small>(*) Backyard deliveries require a 10 ft clearance and incur a \$50 extra charge.</small> Requested Ship Date Required (**) ____/____/____ <small>(**) Please verify availability date on the sales order confirmation you will receive by email.</small>	NOTES:
	<small>In accordance with our terms and conditions of sale, if a buyer requests a delay in shipment, the order will be invoiced for the full amount when the material is ready for shipping.</small>
